OPEN UP TO A WORLD OF COLOUR

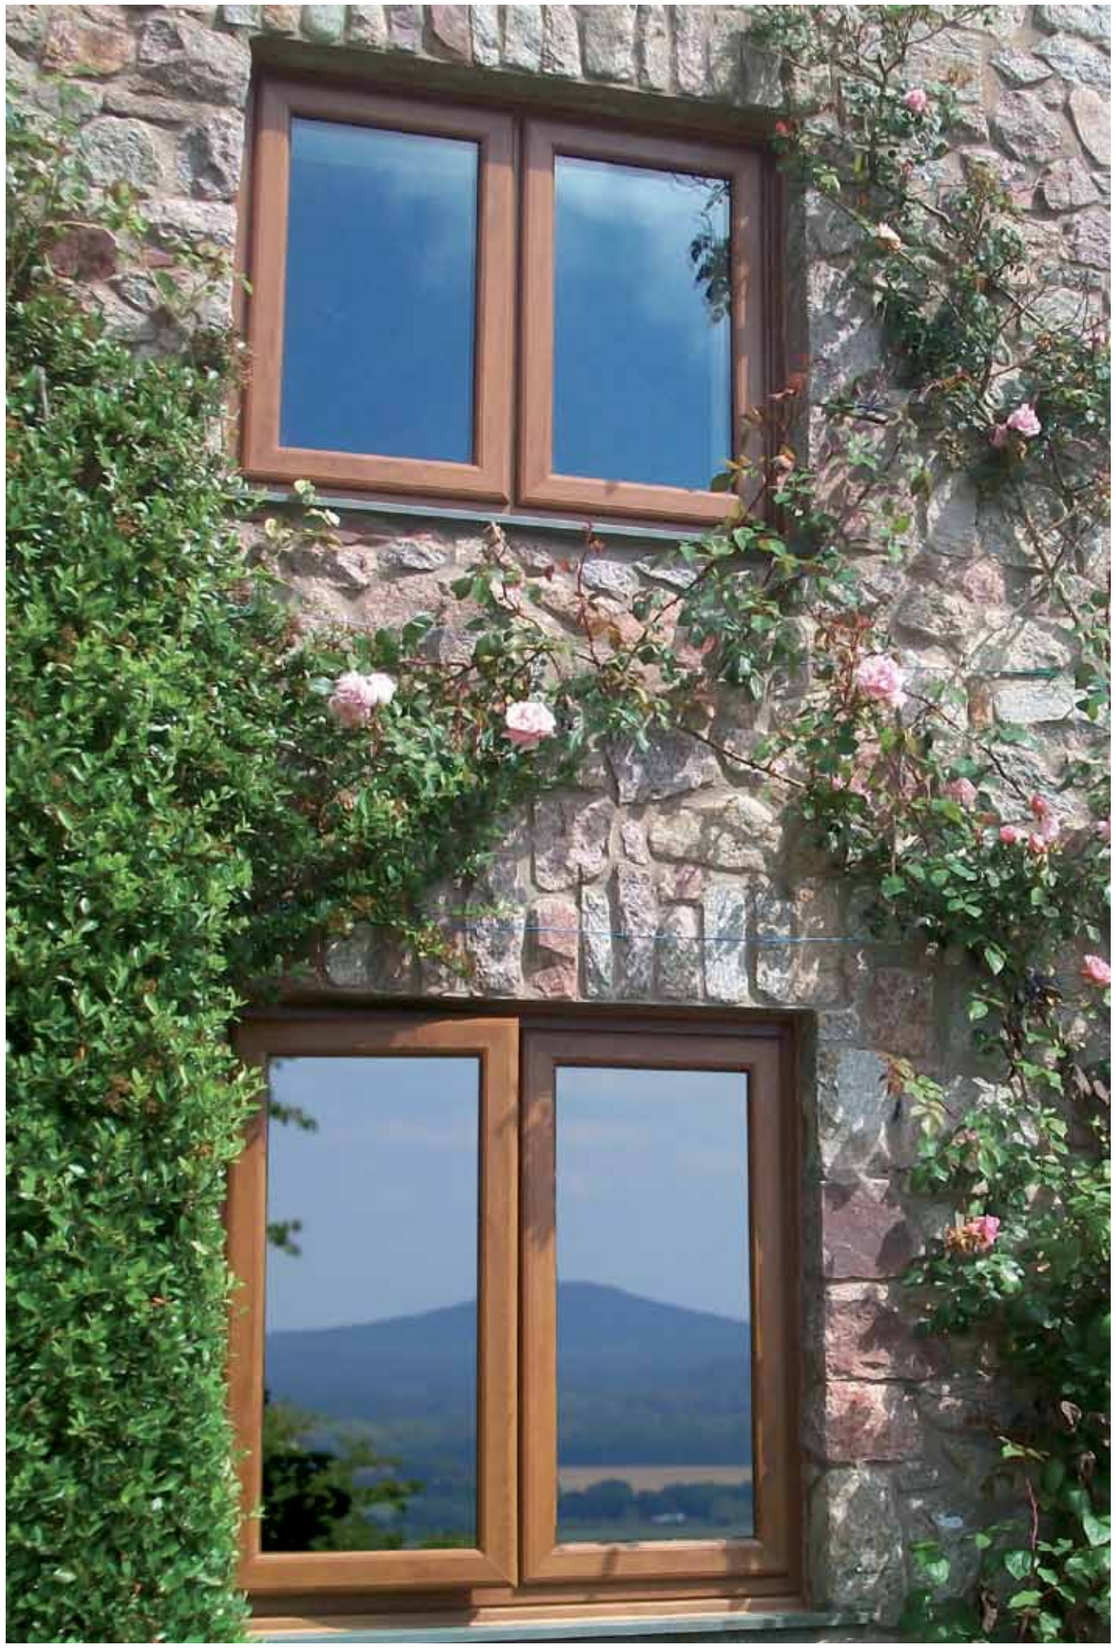

Creating the perfect colour scheme for your home doesn‘t have to stop at the interior decoration. REHAU‘s extensive range of coloured profiles allows you to choose a colour scheme for the windows and doors in your property too.

Whether you prefer cool relaxing greens or vibrant dramatic reds there‘s a colour and finish to enhance every property.

If you like the look of traditional painted windows but want the benefits of PVC-U and double glazing then you‘ll love REHAU‘s fantastic range of coloured profiles.

Find the perfect colour scheme for your home.

CREATIVE COLOUR AND FINISH

COLOURS FOR IMPACT

"White windows" still account for the large majority of installations but, increasingly, homeowners and building specifiers are looking for a different aesthetic affect and a wider range of colours and finishes.

REHAU have been at the forefront of the development of coloured profiles and are able to offer a choice of two different types of colour applications, laminate foil and Acryl II coating, to suite any age or style of property. Further information on the Acryl II Colour Coating System can be found on pages 10-11.

Laminate PVC-U

The application of laminate foil to our PVC-U systems was pioneered back in the 1970's when we developed the process of bonding a multi-layered semi-hard foil to the surface of the profile after extrusion.

The colour and finish options are vast with the ability to complement both the exterior and interior of your property by choosing one colour and finish for the outside and a totally different one for the inside.

The choices include an attractive range of woodgrain effect finishes and strong contemporary and traditional colours such as Chartwell Green, Brilliant Blue and Wine Red.

CREATIVE COLOUR AND FINISH

THE CHOICE IS YOURS

The most popular options of Rosewood, Mahogany and Golden Oak are available as standard on a choice of white, brown and acorn bases for our main systems.

However the choice doesn't end there as we have a further range of 19 special laminate options for you to choose from.

So you can be really creative and make up your own combination to best suit your property.

CREATIVE COLOUR AND FINISH

TO SUIT EVERY PROPERTY

All foil finishes carry extensive guarantees and are well proven for high performance and longevity in all types of weather conditions including bright sunlight, high rainfall or coastal locations, without colour deterioration or fade.

The foils are also durable, scratch resistant and can be easily cleaned for long lasting visual appeal.

REHAU ACRYL II

COLOURS FOR IMPACT

With a choice of over 150 RAL colours and a beautifully smooth finish the REHAU Acryl II coating system will blend beautifully with the design and style of any building.

Acryl II has an impeccable pedigree having originally been developed many years ago by the REHAU Automotive division to produce colour matched bumpers for prestige cars such as Mercedes, BMW and Jaguar.

It is a two part acrylic coating system which is applied by specialist suppliers who have invested in technologically advanced spray booth facilities. The coating is very flexible as it can be applied to either bar lengths of profile or to finished window frames. The finish is durable, colour fast, weather resistant and the Acryl II coating does not affect the impact resistance of the PVC-U.

Acryl II offers an almost endless choice of colour permutations with the ability to colour the frame and sash or inside and outside in two totally different colours. Or it may be that simply colouring the sill or bead would best suit the style of property which is also easy to do with the Acryll II system. The options are exciting and almost limitless.

A Colour Chart showing the full range of colour options is available as a download on line at www.rehauhome.com or if you prefer you can request a hard copy of the brochure.

Whichever REHAU colour option you choose you can be rest assured that your windows, doors or conservatory will beautifully enhance your property for years to come.
